## RECORD FEES PAID TO COUNTY

More Than \$27,000 In License Money Received During Morning.

All records for collection of license money by the city and county were broken this morning, the first day of the county's fiscal year, when more than \$27,000 rolled into the coffers at the office of the city treasurer.

Treasurer Shingle, Assistant Treasurer Eugene Campbell and License Clerk Rose were about the busiest men in the city. Hack drivers, shopkeepers, hotelkeepers, butchers, brokers, druggists, pawnbrokers, peddlers, tobacco sellers, boatmen, garage owners, and, in fact, everybody from the baker to the candlestick maker, poured into the office and tried to pay their annual license fees before the treasury closed up for the day.

Many failed to comply with the requirements for a permit from the Board of Health applicable to certain business and could not get their licenses. In fact, the number who had complied with the law in this particular were very few. However, the city and county is lenient, and will give the delinquents time to straighten up the trouble.

The largest single item this morning was \$22,592.50 turned over to the city and county by the liquor license board. Chairman Carlos Long personally turned over the money, and it was checked off under his supervision.

Of the money that came in over the county, amounting to approximately \$2600, the largest individual item was \$750 from the Bank of Honolulu, each bank paying this annual fee. Two fees of \$50 each were received from a hotel and a restaurant.

Although the treasurer's office usually closes at noon, it is being kept open part of this afternoon to care for the rush of people who are trying to comply with the law today.

## CAMPBELL EXPECTED TO GIVE HIS ANSWER

The territorial board of immigration has called a meeting for next Monday afternoon at 3 o'clock, and it is expected that at that time a definite statement will be forthcoming as to whether or not A. J. Campbell will return to Europe as the agent of the board in recruiting laborers for Hawaiian plantations. According to good information, Campbell's return depends upon whether he can get some pressing business here arranged for, and it is anticipated that he will again represent the board in Europe.

## QUEEN RECEIVED CHURCHMEN

In the large and spacious drawing-room of her home, Washington Place, yesterday afternoon, Queen Liliuokalani received the island pastors, elders and delegates here for the annual meeting of the Hawaiian Evangelical Association. The Oahu churchmen, including the Japanese, were among those who paid their respects to the Queen.

The Queen, who was assisted in receiving the guests by Mrs. C. P. Lauke, Mrs. C. S. Holloway and Mrs. Aldridge, shook hands about four hundred and forty times, there being many guests present. The visitors' line formed in front of Washington Place and marched into the room, where each guest was presented to Liliuokalani by Colonel C. P. Lauke and Hon. E. K. Liliuokalani. The Oahu delegation was introduced to her by J. K. Kanehau; Rev. S. L. Desha presented the Hawaii delegation, and Judge J. H. K. Kaiwi introduced the Kauaiites to her. Rev. T. Okumura of this city presented the Japanese.

After the guests had been presented to the Queen, Rev. S. L. Desha offered prayer. Queen Liliuokalani personally thanked the committee, Hon. J. W. Kauha, Rev. E. S. Timoteo and Rev. S. L. Desha.

Before the party left Washington Place, old Hawaiian songs were sung by the visitors, after which the Queen asked them all to return to their different homes and extend her regards to the Hawaiian people.

An invitation to visit Lincoln, Neb., extended by Governor Aldrich and Mayor Charles W. Bryan, brother of William J. Bryan, next September, has been taken under advisement by President Taft.

## KAU DISTRICT WILL BE "DRY"

(Continued from Page 1)

The dirty way in which the place was kept, if for no other reason. De Mello showed considerable bitterness toward Manager Daniels of the Kona Tobacco Company, who was shown by an affidavit to have made the statement that his employees could get their liquor through him if De Mello was closed. A number of orders, something over twenty, in fact, signed by Daniels and mostly for "one bottle of gin," were also introduced to show that the tobacco man had no objection to liquor himself, though against it for his employees. De Mello had no chance for a license, however, as the result of what the commissioners themselves had seen.

## CAPT. GAUNT OF CHALLENGER ILL

Captain G. R. A. Gaunt, R. N., commanding officer of H. B. M. S. Challenger, was taken ill yesterday and immediately sent to a sanatorium, where a quiet rest will be afforded him. The nature of the captain's illness is not dangerous, and a few days will more than likely see him back on board his ship.

A cable will be sent today to the commander-in-chief for orders in regard to staying in port later than the fifth, should the captain have to remain at the sanatorium longer than expected.

Last evening the captain's temperature rose to 103, but today it is considerably lower and the outcome looks most favorable.

All through the Challenger's cruise around the waters of Mexico and South America, Captain Gaunt has suffered from a slight attack of malaria, not breaking down until arriving here.

At Apia, Samoa, in 1899, Captain Gaunt became quite well known in American history, when, with his detachment of bluejackets from H. B. M. S. Porpoise, he charged the Samoans when they were giving a good deal of trouble.

## NO FUNDS FOR NEW BUILDINGS

Supervisor Murray who was one of several city and county solons who spent some time in framing up a new appropriation bill which provides for funds for carrying on municipal expenses for the next six months states that there is no money in sight for new school buildings.

"The work urged through the members of the ways and means after a general canvass of the several school districts of the county of Oahu will have to go over until the coming year," was the way that Murray stated it this morning.

"The call for funds with which to erect new buildings and carry on more or less extensive repairs may perhaps be provided for in the estimates to be prepared at the close of this year."

"Even then if the money is found it will in all probability have to come through an increased tax levy."

The lump sum of \$52,345.00 is required to maintain carry on repairs and erect new buildings for the city and county schools according to a carefully prepared statement submitted to the board of supervisors by city and county engineer Gere at the meeting of the county solons last night.

For maintenance and repair work needed, though which may be put off for six months, \$5,205 is asked. Maintenance which is claimed as urgent and requiring immediate attention will cost \$9,196.00.

The estimates by the county engineer for new buildings and additional quarters for teachers and scholars reach a total of \$43,150.00.

The report names and gives details of the repairs and alterations needed to place the county as well as city schools on a proper working basis. The work includes about everything from repainting to new roofs, floors, blackboards, toilets, fences, water tanks and cementing.

There can be nothing done at all for the coming six months is the opinion of several members of the board who have made a study of the appropriation bill. The schools will have to get along as best they can until the January appropriation bill comes up for consideration.

With not a single exception, county engineer Gere has found that the calls for additional school and teachers' rooms come from the outer districts. The work asked for the buildings being confined to repairing and repainting.

## ESTRADA ON HIS WAY TO AMERICAN CAPITAL

Will Consult Washington Officials in Regard to Future of Nicaragua.

PORT BARROS, Guatemala, June 14.—Juan J. Estrada, former President of Nicaragua, sailed Monday on the United Fruit Company's steamer Herodias for New Orleans. After a short stay in New Orleans he expects to go to Washington for consultation with State Department officials concerning the future of his country.

Senor Estrada denied any connection with a general Central American revolutionary plot, and declared the stories that he had planned to establish a separate republic out of the northern half of Nicaragua were without foundation.

## HONOLULU OIL DOWN TO \$1.50

Honolulu Consolidated Oil is down to 1.50 now, the steady decline of the past month having brought it from 1.875, in spite of optimistic reports as to the value and early prospects of the property. Five hundred shares at 1.50 were reported sold by the Hawaiian exchange this morning, and it is said on "the street" that this block was taken by a number of members of a large firm here. The Hawaiian exchange also reports 500 Temploir oil sold at eight and a half cents.

In sugar stocks the closing day of the week was productive of little. The Honolulu exchange reports 10 McBryde at 4.625 and 50 O. R. & L. Company at 138.50 sold between boards, and 40 Hukilua at 11.75 and 5 Waiolu at 11.00 at the morning session. Waiolu dropped from 11.25, and even that was a sharp decrease from recent prices. McBryde's figure is a slight advance.

The regular dividends declared today were: Hukilua, \$1; Palo, \$1; Pioneer, \$1.50. Mutual Telephone also began its new dividend schedule with 30 cents a share paid today.

Oil quotations today by the Hawaiian exchange are as follows:
